

ADVANTAGES OF BANSBACH GAS SPRINGS

- Extremely **rust and corrosion resistant** achieved through **CeramPro®** treated piston rod and **powder coated cylinder out of steel** surfaces (Except stainless steel versions)
(The **CeramPro®** surface is a innovative development out of the Bansbach laboratory)
- A high-quality and unique guiding piece **with integrated grease chamber**
- Protection against vibration and light side forces.
- Minimal friction for the production of lowest extension forces.
- Piston for speed control
- Low break away forces
- Best life cycles
- **Connecting parts available in many variations**
- Installation and storage in any position

CERTIFIED QUALITY

Bansbach Gas springs are manufactured out of the highest quality, environmentally friendly materials. Consistent quality is guaranteed because of diligent monitoring of raw materials, an aggressive testing program and a redundant quality control program throughout the production process. Re-ordered products are consistently produced accurately by using our technologically advanced manufacturing processes.

CERTIFICATES OF BANSBACH EASYLIFT

- **Certified Aerospace production facility** according to part 21 G
- DIN EN ISO 9001
- AEO-F
