Mobile Pump Units. Industrial Trolleys

Their portability allows easy movement to wherever needed. This means almost limitless applications. Pump with accessories like damper, flexible hoses and air treatment system can be installed on the trolley.

Sanitary trolleys are made from sanitary design, allows them to be used in food, dairy, beverage and pharmaceutical industries.

Trolleys in ATEX version can be used in hazardous areas.

Trolley with mounted solenoid controlled pump and PLC allows to use Mobile Pump Unit as a mobile dosing system.
