

Handles single & multi-plane swivel movement with positive sealing. Available in 1" through 6" sizes.

Special design features :

- Two rows of widely spaced bearings support heavier loads.
- Three-piece design simplifies repair.
- Spring energized seals offer leaktight sealing at all pressures, including vacuum.
- Seal can be replaced without removing bearings.
- Available in three seal materials that are compatible with many gasses, fluids & chemicals.

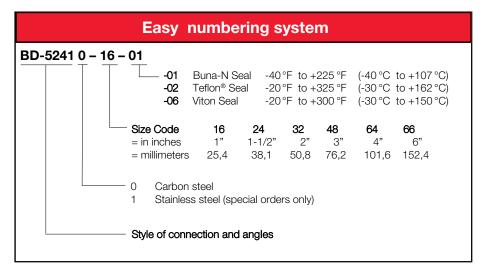

DEUBLIN SERIES Plane Swivel Joints

DEUBLIN Plane Swivel Joints provide 360° movement between piping elements in one or more planes for conveying or transferring a wide range of fluids including oils, water, air, gasses and chemicals.

Available in three types: threaded, welded and flanged to suit your application.

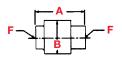

Simple design permits ready installation and fast easy maintenance.

Engineered for Performance

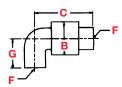

Plane Swivel Joints

DEUBLIN supplies several different styles and sizes to suit your particular application.

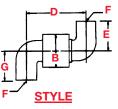

STYLE Welded end BD-5141

Threaded end BD-5241

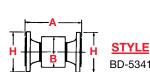

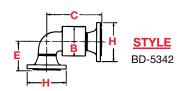

STYLE Welded end BD-5142 Threaded end BD-5242

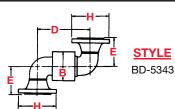

Welded end BD-5143 Threaded end BD-5243

* also available in BSPT threads

FLANGED END STYLE (available in 3" thru 6")

JOINT	SIZE	Α	В	с	D	Е	н	Maximum cold working Pressure psi (Kg/cm²)

DEUBLIN[®] **DEUBLIN** SERIES Self-Aligning Swivel Joint Handles rotary and angular alignment motion with positive sealing. **BULLETIN 4001**

Special design features :

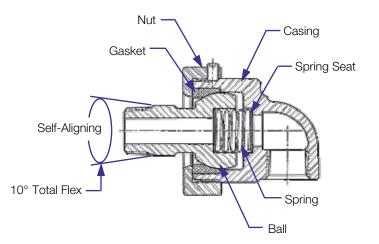

- 10° angular flexibility permits positive positioning of lines.
- **Outperforms and outlasts flexible hose** with lower pressure drops.
- Faster and easier piping installation. Fabrications simplified.
- Eliminate the hazards of leaking pipe connections or catastrophic hose failures.

Dog-leg arrangements accommodate hinged and lifting motions of presses.

DEUBLIN is recognized as the pioneer and leader in the development and manufacture of spring-loaded, single-seat Self-Aligning Swivel Joints. These unique products handle 360° rotating and 10° angular movement between machinery and pipe work.

DEUBLIN Self-Aligning Swivel Joints convey hot and cold water, alternating steam and water and heat transfer fluids.

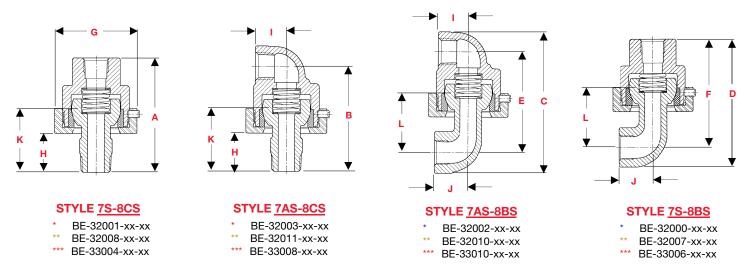

Engineered for Performance

DEUBLIN / STANDARD SERIES

Standard Series Self-Aligning Swivel Joints are built for steam, hot oil, water and alternating steam and water service.

- * Basic assembly number—Standard Series, All Bronze, available in 1/2" (13mm) and 3/4" (19mm) sizes. Dimensions located in Table 1.
 ** Basic assembly number—Standard Series, Malleable Iron Casing with Bronze Nut & Ball. Available in 1/2" (13mm)
 - to 1-1/2" (38mm) sizes. Dimensions located in Table 1.

*** Basic assembly number—Series 600, All Steel, available in 1-1/4" (32mm) and 1-1/2" (38mm) sizes. Dimensions located in Table 2.

Self-Aligning Swivel Joint

DEUBLIN "Non-flex" Collar

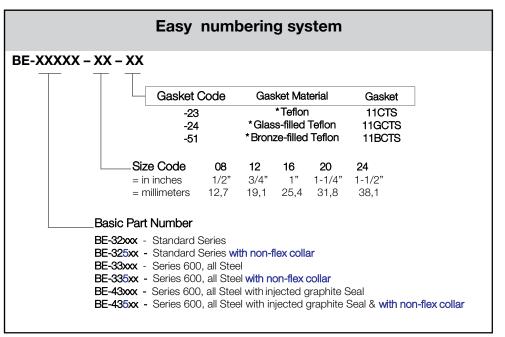

The "Non-Flex" Type Swivel Joints are available in the same styles, sizes, and materials as standard swivel joints, but a steel split collar is added between the nut and the gasket. The neck of the ball is machined to provide a bearing with this collar. This allows 360° rotation, but eliminates the 10° side flexing.

In dogleg, or three-joint assembly, it is recommended that the "Non-Flex" swivel joint be used only at the top anchor point of the assembly. Regular swivel joints at the other two points relieve binding and allow for piping misalignment.

DEUBLIN easy to follow numbering system

To order *DEUBLIN* swivel joint, state the complete part number as follows: First, state the Basic Assembly Number, second, indicate the Size Code, third, add the Gasket Code number.

* DuPont trademark
