MORE THAN 300 PROFESSIONALS WITH PASSION

It is people, with their professionalism and dedication that make a great company. This profound conviction has always guided Pizzato Elettrica in their choice of employees and partners.

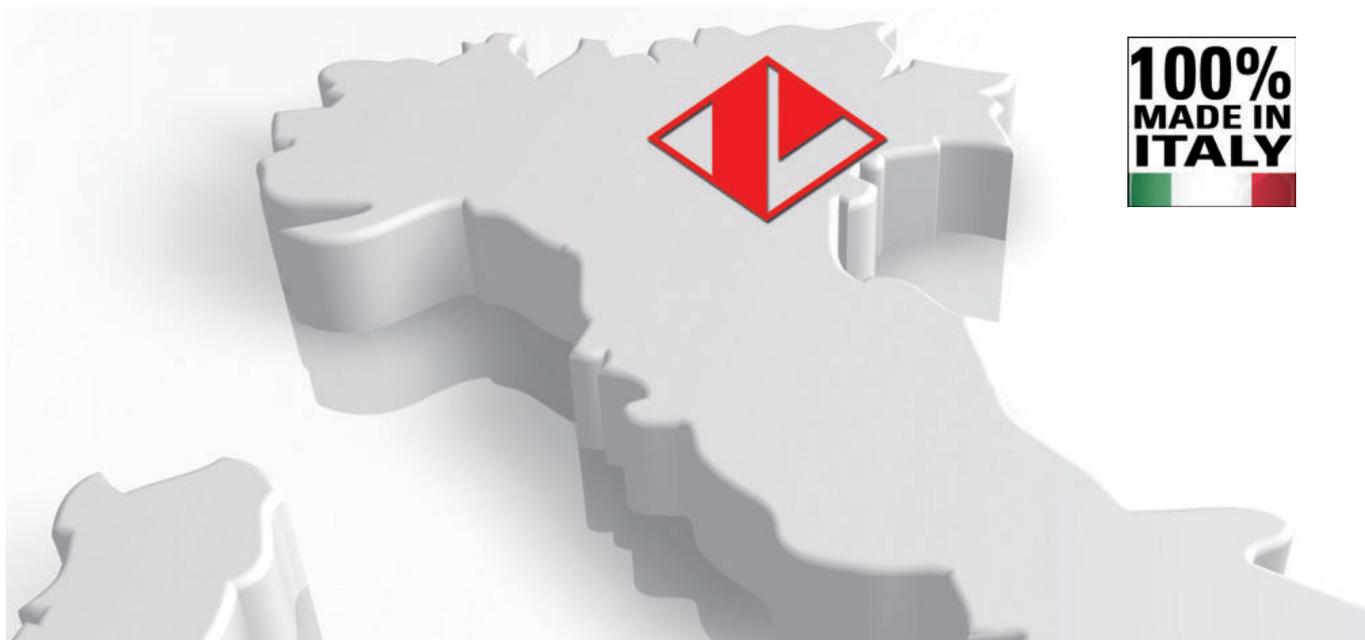

Today, Giuseppe and Marco Pizzato lead a tireless team providing the fastest and most efficient response to the demands of the market. This team has grown over the last 10 years and has achieved a considerable increase in sales in all the countries where Pizzato Elettrica is present.

The various strategic sectors of the business are headed by professionals with significant experience and expertise. Many of these people have developed over years with the company.

Others are experts in their specific field and have integrated personal experience with the Pizzato Elettrica ethos to extend the company's capability and knowledge.

From the design office to the technical assistance department, from managers to workers, every employee believes in the company and its future. Pizzato Elettrica employees all give the best of themselves secure in the knowledge they are the fundamental elements of a highly valuable enterprise.

100% MADE IN ITALY

Pizzato Elettrica is one of the leading European manufacturers of position switches, microswitches, safety devices, safety modules, foot switches, control and signalling devices, and devices for lifts.

An entrepreneurial company such as Pizzato Elettrica bases its foundations on a solid and widely shared value system. The pillars that form the basis of the company's work have remained constant, and constitute the fundamental guiding principles for all company activities.

PASSION FOR QUALITY

Passion for product quality, orientation towards excellence, innovation, and continuous development, represent the key principles of Pizzato Elettrica's everyday work.

Anyone using Pizzato Elettrica's products does so in the certainty that these devices are of certified quality, since they are the result of a process that is scrupulously controlled at every stage of the production. The company's goal is to offer the market safe, reliable, and innovative solutions.

CARE FOR THE CUSTOMER

In order to be successful, a product must respond to the specific needs of those who will use it. Market developments must be carefully monitored in order to understand, in advance, which new applications will prove themselves truly useful. This is why Pizzato Elettrica has always cultivated close synergies with the companies that have chosen it as a supplier, using this continuous dialogue to identify the potential developments of the own product range in order to make it highly flexible, complete and capable to respond to the most diverse needs.

100% MADE IN ITALY

All Pizzato Elettrica products are designed, developed, and tested entirely at the company plants in Marostica, in the province of Vicenza in Italy. The company is thus able to meet specific customer requirements at all times, by offering a comprehensive range of products and technologically advanced solutions.

1984: AN ENTREPRENEURIAL STORY BEGINS

- 1984** The company Pizzato di Pizzato B. & C. snc. manufacturer of position switches is founded.
- 1988** The company becomes a limited liability partnership, and is renamed Pizzato Elettrica, a brand shortly destined to become renowned and valued nationwide. The first company-owned plant (P1) geared towards mechanical processing was built.
- 1990** By the end of the decade, thanks to the development of quality products and the experience built on the Italian market, Pizzato Elettrica turns to the international market.
- 1995** Building of the second plant (P3) geared towards the moulding of plastic materials. Development of the position switch range continues in parallel. Start of significant years in terms of safety devices planning. The safety sector becomes a key sector to the company.
- 1998** Construction of the third plant (P4), housing the assembly department.
- 2002** Achievement of the ISO 9001:2000 certification. Launching of the first safety modules. The new factory headquarters and logistics centre (P5) is built and will remain the company's headquarters for many years. Continued expansion of the industrial safety and automation product range.
- 2007** Pizzato Elettrica faces its first generational change: Giuseppe and Marco Pizzato take over the company directorship.
- 2010** Extension of Pizzato Elettrica product portfolio, with the launch of the innovative EROUND line consisting of control and signalling devices. This product range accompanies position switches and safety devices, thus offering complete solutions to customers.
- 2012** Introduction of Gemnis Studio, the first software produced by Pizzato Elettrica. A graphic development environment for the creation, simulation, and debugging of programs that can be integrated in the Gemnis line modules.
- 2013** Foundation of first subsidiary of Pizzato Elettrica, Pizzato Deutschland GmbH, in Germany.
- 2014** A new production facility (P8) dedicated to switches and automatic machines is opened, spanning a surface area of 6000 m².
- 2016** The new NS series of safety switches with electromagnets and RFID technology is introduced, fruit of the company's experience, spanning more than thirty years in the field of industrial safety. To date it is the state of the art in its industry. Foundation of second subsidiary of Pizzato Elettrica, Pizzato France SARL, in France.
- 2017** The company continues to expand and achieves the quality certification based on the more recent version of standard ISO 9001 of 2015. In Spain, the third Pizzato Elettrica subsidiary is founded: Pizzato Iberica SL. The foundation stone is laid for the new factory (P6), which is to become the company's headquarters.
- 2018** The safety handle P-KUBE Krome is launched, a brand new product in the market, confirming that Pizzato Elettrica thrives on innovation in the sectors of automation and industrial safety. Foundation of fourth subsidiary of Pizzato Elettrica, Pizzato USA Inc, in the United States.
- 2019** The new factory (P6) is opened, a modern building of 28,000 m² realized with the most advanced Industry 4.0 technologies, where all offices and production divisions are transferred, allowing to further improve the flow of material and information. The logistics and shipment department is optimised with the introduction of a new completely automated warehouse.
- Today**, Giuseppe and Marco Pizzato lead a company in constant growth in terms of new product launches, number of employees, turnover, and new markets. Pizzato Elettrica is continuing its new product internationalisation and development process.

100 MILLION PARTS SOLD WORLDWIDE

Pizzato Elettrica's product catalogue contains more than 7,000 articles, with more than 1,500 special codes developed for devices personalised according to clients' specific needs. Pizzato Elettrica devices can be grouped, according to typology, into three main macro-categories.

POSITION SWITCHES

Pizzato Elettrica position switches are daily installed in every type of industrial machinery all over the world for applications in the sector of wood, metal, plastic, automotive, packaging, lifting, medicinal, naval, etc.

In order to be used in a such wide variety of sectors and countries, Pizzato Elettrica position switches are made to be assembled in a lot of configurations thanks to the various body shapes, dozens of contact blocks, hundreds of actuators and materials, forces, assembling versions.

Pizzato Elettrica can offer one of the widest product range of position switches in the world. Moreover, the use of high quality materials, high reliability technologies (e.g. twin bridge contact blocks) as well as the IP67 protection degree make this range of position switches one of the most technologically evolved.

SAFETY DEVICES

The company Pizzato Elettrica has been one of the first Italian companies developing dedicated items for this sector, creating and patenting dozens of innovative products, thus becoming one of the main European manufacturers of safety devices.

The vast range of products aimed specifically at the safety of machinery, fully designed and assembled at the Marostica (VI) company premises, includes not only more traditional safety switches with separate actuator (with or without locking mechanism) and hinge switches but also state-of-the-art anti-tampering devices with RFID technology, such as the ST series sensors, and NG and NS series locking devices.

The product range is complemented by safety handles for guards, with the innovative P-KUBE Krome model whose grip can be illuminated with multicolour signalling LEDs, as well as by the CS series safety modules, available in single function versions, or user-programmable with the use of the Gemnis Studio software; fully implemented by Pizzato Elettrica and distributed with a free licence.

HUMAN-MACHINE INTERFACE

Pizzato Elettrica's control and signalling devices of the EROUND line are designed for the use in the human-machine interface sector. Thanks to the elegant design, the care for details and the elegance of the product combined with its maximum safety and reliability, this series is one of the most complete and cutting-edge on the market.

In order to satisfy its customers' needs and requests, Pizzato Elettrica offers a lot of accessories purposely designed not only to complete its wide range of products, but also to help device installation on machineries.

MILLIONS OF CERTIFIED PRODUCT CODES

A simple brand isn't enough: the company is aiming for the Pizzato Elettrica brand to be widely recognised as a synonym for absolute quality and certainty.

A result that has been reached and consolidated over the years, updating and expanding the series of certifications obtained from the most important Italian and international control organisations. Product quality is assessed by five accredited external bodies: IMQ, UL, CCC, TÜV SÜD, EAC. These bodies lay out high technical and qualitative standards for the company to achieve and maintain, verified yearly with several inspections: these are performed, without prior notice, by qualified inspectors, who extract samples of products and materials destined for sale from plants, or from the market directly, to subject them to apposite tests.

- **CE MARK.** All Pizzato Elettrica products bear the CE marking in conformity with the European Directives in force.
- **ISO 9001 CERTIFICATION.** The company's production system is compliant with the international ISO 9001 standard, in its most recent 2015 revision. The certification covers all of the company's plants and their production and managerial activities: entry checks, technical, purchasing and commercial department activities,

manufacturing operations assessments, final pre-shipping product tests and checks, equipment reviews and the management of the metrological lab.

The Pizzato Elettrica quality management system ensures that all sensitive company processes – from component design to implementation, from materials provisioning to verification of non-compliant products – are carried out according to the procedures laid down, with the aim of providing our customers with continuously improved and reliable products.

- **CERTIFICATION OF COMPANY QUALITY SYSTEMS.** Pizzato Elettrica has obtained the certificate of compliance with the UNI EN ISO 9000 regulations in force in Italy and abroad. It is issued by a recognised independent body that guarantees the quality and reliability of the service offered to clients worldwide.
- **CSQ, CISQ AND IQNET.** The CSQ system is part of the CISQ (Italian Certification of Quality Systems) federation, which consists of the primary certification bodies operating in Italy in the various product sectors. CISQ is the Italian representative body within IQNet, the biggest international Quality Systems and Company Management certification network, which is adhered to by 25 certification organs in as many countries.

GLOBAL SUBSIDIARIES

Pizzato Deutschland GmbH
Munich

To order a product of the **FX, FM or FZ series**, replace FR with FX, FM or FZ in the codes shown above.
 Example: **FR 601-W3M2** → **FM 601-W3M2**

Position switches with swivelling lever without actuator, see page 19

Pizzato Elettrica has developed a reset device code W3 to make perfectly simultaneous the actuator and the contact block tripping. This device is a module that is mounted between the body and the head of the switch that can be rotated independently from the head. The reset device has the following advantages:

- Contact blocks with snap action are no more necessary because the tripping movement is executed by the reset device itself;
- Can be rotated independently from the head ensuring maximum flexibility during installation;
- Can be delivered with two different actuating forces: standard (W3) and increased (W4) for vibration applications;
- Mechanical endurance: 1 million operating cycles.

Switches for special applications

Ø 25 metal tube set with M25x1.5 threaded ends with brass nuts and gaskets.	Metal nut M25x1.5 to be used with VF KIT31 or VF KIT29 if off-the-shelf housings are used. Packs of 10 pcs.	Emergency stop button kit with mechanical positive actuation compliant with EN 60947-5-1 and EN ISO 13850, to combine with VF KIT31 or VF KIT29. Protection degree IP65.	Empty housing kit with Ø 22 mm hole, compliant with EN 60947-5-1, to combine with VF KIT31 or VF KIT29. Protection degree IP65.	Carrying handle kit for tube Ø 25 mm, to combine with VF KIT31 or VF KIT29.

VF KIT60	VF KIT61	VF KIT71	VF KIT81	VF B501 ⊕ (1NC+1NO, snap action) VF B601 ⊕ (1NC+1NO, slow action)
Metal stabilizing plate for single pedals.	Metal stabilizing plate for double pedals.	Additional metal protections for single PA series foot switches. In heavy-duty work environments, increased dimensions for safety shoe. Not applicable with VF KIT60.	Additional metal protections for PC series modular foot switches. In heavy-duty work environments, increased dimensions for safety shoe. Not applicable with VF KIT61.	Additional contact block for foot switches (all pedals are supplied with pre-installed contact blocks).

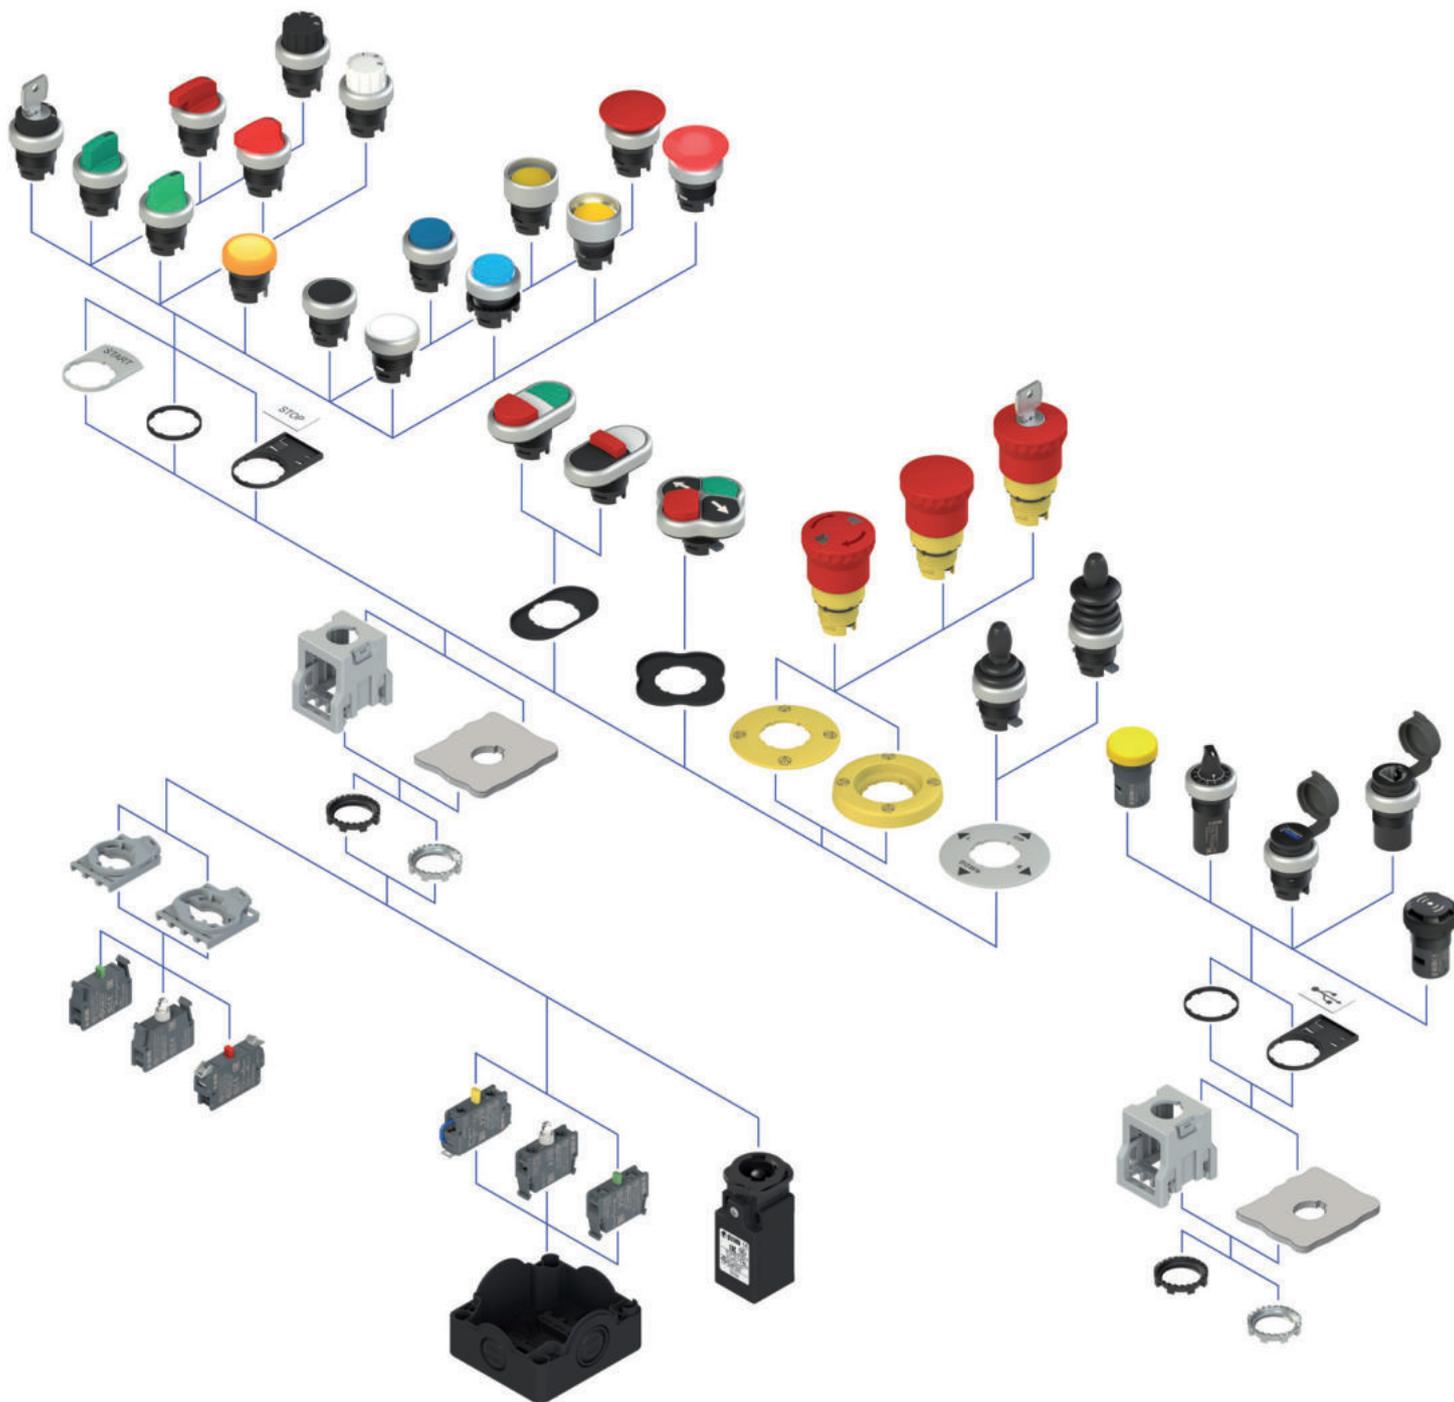

Modular foot switches - PC series

Using the bonding kits (VF KIT20 or VF KIT30), individual foot switches can be joined in multiple combinations.

4 EROUND line introduction

Pizzato Elettrica's innovative EROUND control and signalling devices combine elegance and functionality in a single product. The ergonomic design allows a comfortable and easy use of the devices. The details have been carefully designed giving the products a pleasant appearance and making them suitable for applications also on well designed machinery. The devices of the EROUND line, thanks to their design and functionality, guarantee maximum reliability, and are suitable for any type of application. Most devices, not only have an IP67 protection degree, but have also passed the test proving their IP69K protection degree according to the prescriptions established by the ISO 20653 standard.

RFID safety switches with lock NS series

Technopolymer housing
 High level coded actuator (EN ISO 14119)
 Max. holding force: 2100 N
 Protection degrees IP67 and IP69K
 Status LED
 Marks:

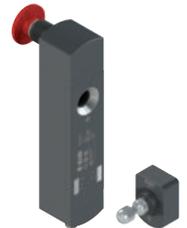

Locked actuator with **de-energised** 24Vdc solenoid.
 With screwdriver release.

Locked actuator with **de-energised** 24Vdc solenoid.
 With key release.

Locked actuator with **de-energised** 24Vdc solenoid.
 With key release and escape release button.

Locked actuator with **de-energised** 24Vdc solenoid.
 With screwdriver release and escape release button.

Locked actuator with **energised** 24Vdc solenoid.
 With escape release button.

With M12 connector, axial

Mode 1 OS1/OS2 safety outputs active with inserted and locked actuator

Mode 2 OS1/OS2 safety outputs active with inserted actuator

Mode 3 OS1 safety output active with inserted and locked actuator, OS2 safety output active with inserted actuator

RFID safety switches with lock NS series with remote escape release

Self-monitoring of cable tension
Device can be turned in 90° steps
Flexible installation
Activation button for remote escape release

Locked actuator with de-energised 24Vdc solenoid. With key release and remote escape release.

Locked actuator with de-energised 24Vdc solenoid. With screwdriver release and remote escape release.

Note: The codes shown on the side include the safety switch supplied with the remote release cable which has a standard length of 5 meters. For other lengths, please contact our Technical Department.

The remote escape release switch must be supplemented with the push button with the code VN RR-K4.

Activation button for remote escape release

Article	Description
VN RR-K4	Activation button for remote escape release on NG and NS series switches

Note: The actuation cable is integrated in the remote release device connected to the safety switch.

Inputs and outputs

- 2 safety inputs IS1, IS2
- 2 safety outputs OS1, OS2
- 1 signalling output O3: closed guard
- 1 signalling output O4: locked guard
- 2 solenoid activation inputs IE1, IE2
- 1 programming / reset input I3

For safety applications, connect with the safety modules shown on the side. See technical data on page 56.

P-KUBE 1 safety handles

Can be used with switches from the FD and FG series

Self-centring metal pin

Integrated padlockable lock out device

Thanks to the slotted brackets the handle can be adjusted on 3 different axes

Suitable for use with hinged and sliding doors, either with right or left closing

Switch and actuator not included in scope of delivery

For FG series switches

VF AP-P11B-200P

For FD series switches

VF AP-P11A-200P

P-KUBE 2 safety handles

Can be used with switches from the NG series

Thanks to the slotted brackets the handle can be adjusted on 3 different axes

Suitable for use with hinged and sliding doors, either with right or left closing

Optional lock out device

Switch and actuator not included in scope of delivery

With lock out device

AP G1A-111P

AP G0B-111P

P-KUBE Fast safety handles

Can be used with switches from the FD and FG series

Compact, lightweight solution

Internal lever for emergency escape

Integrated padlockable lock out device

Suitable for use with hinged and sliding doors, either with right or left closing

Switch not included in scope of delivery

For FG series switches

VF AP-S13BP-300

For FD series switches

VF AP-S13AP-301

P-KUBE Super safety handles

Can be used with switches from the NG series
Suitable for use in particularly demanding work environments

Dual centring pin

Integrated padlockable lock out device

Thanks to the slotted brackets the handle can be adjusted on 3 different axes

Suitable for use with hinged and sliding doors, either with right or left closing

Switch and actuator not included in scope of delivery

For NG series switches

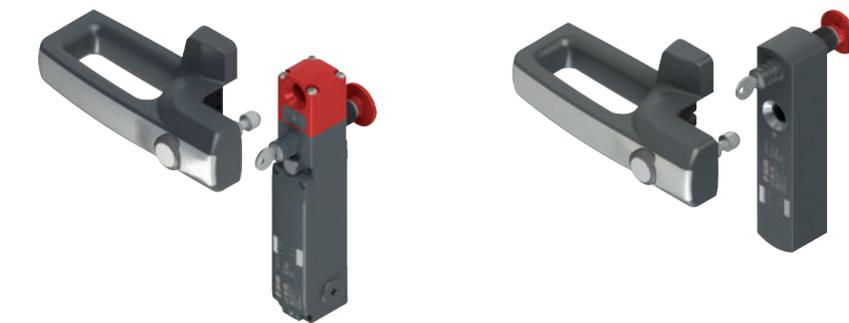

AP G2C-800P

P-KUBE Krome safety handles

Can be used with switches from the NS and NG series
 Technopolymer grip
 Satin chrome and illuminated white finishes
 Control button integrated into grip
 Grip illumination with RGB LED
 Internal metal fixing plates
 Suitable for use with hinged and sliding doors, either with right or left closing, same individual product code.
 Supply voltage 24 Vdc
 Protection degree IP65
 Optional lock out device
 Switch and actuator not included in scope of delivery

Connection cable not necessary

With satin chrome grip, for NS series switches With satin chrome grip, for NG series switches

With satin chrome grip, for NS series switches With satin chrome grip, for NG series switches With illuminated grip (white), for NS series switches With illuminated grip (white), for NG series switches

With 3 m long PVC cable

P-KUBE Smart safety handles

Usable with ST series RFID safety sensors
Possibility of application with horizontal or vertical handle

Satin chrome and illuminated white finishes
Control button integrated into grip
Grip illumination with RGB LED
Direct fixing on the grip or through solid inner plate

Suitable for use with hinged and sliding doors, either right or left closing, same individual product code
Supply voltage 24 Vdc
Protection degree IP65
ST series sensor not included

With RFID at a high level of coding for ST series sensors.
Connection cable not necessary

	Without control device

Lock out devices

Can be used with switches from the NS and NG series

Made entirely of metal

Prevents unexpected start-up of the machine

Mechanical and RFID signal shielding of actuator

Compatible with P-KUBE 2 and P-KUBE Krome safety handles

For NS series switches,
mounting on the left side of the switch

LK S1S001

For NS series switches,
mounting on the right side of the switch

LK S1D001

For NG series switches

AP G1Z-000Z

Rope switches for emergency stop FD, FL, FC and FP series

Application example

The clear objectives in the development of the CS series safety modules were safety and reliability. The design, development and production of these products have been approached with the passion for quality that characterises Pizzato Elettrica.

During the design phase, the components were deliberately oversized and the circuit diagrams were verified by third-party and independent bodies. Quality was the underlying factor for choosing the components. Basic elements, such as the relays with forcibly guided contacts, were chosen from leading manufacturers. The production process, done entirely in-house by Pizzato Elettrica, is controlled by a functional check of 100% of all products. Every single part produced is tested in a computerized testing station that, only if the product passes all the electrical tests, prints the label of the safety module, identified by a precise serial number.

Particular attention has been paid to the connection type. Here, the customer can choose between fixed terminals, a removable connector, screw connections or spring connections. Additionally, the product range includes different supply voltages with wide tolerances of the nominal values, so as to be compatible for use in less industrialized countries as well.

The CS MP series programmable safety modules are the result of Pizzato Elettrica's long experience in the machine safety sector. A CS MP series module is a programmable safety device, which allows several safety functions to be carried out simultaneously. This product series has been developed for manufacturers of machines with a low to average number of safety functions. As an indication, these modules can manage applications which are equivalent to the functions carried out by 3 to 4 traditional electromechanical safety modules, up to circuits with dozens of inputs.

The **Gemnis Studio** program is a graphic development environment for the creation, simulation and debugging of programs that are uploaded to the corresponding modules of the Gemnis family. **This software is licensed free of charge to users wishing to program these modules, subject to prior registration at www.gemnis.com**

For the latest news visit the website www.gemnis.com

An increasing number of users requires products which carry out several safety functions without needing the complex management of a safety PLC or the complex wiring of many traditional safety modules. Such problems arise mainly when the safety functions are typically greater than 3 or 4, or when managing a safety PLC software (software purchase, training courses, programming of all modules, software management and filing, updates etc.) turns out to be too great an overhead in relation to problem complexity. With the CS MF series of Gemnis, Pizzato Elettrica offers a series of electronic modules which are pre-programmed for specific customer applications or for generic safety macro-functions commonly used in industrial contexts.

The General Catalogue Safety (available from www.pizzato.com) lists some of the pre-programmed products for generic macro-functions commonly used in the industrial sector. These products are available for individual purchase. Any customer requiring a product pre-programmed to their particular specification can contact the Pizzato Elettrica technical department (minimum volumes are requested). All Gemnis series products are able to provide circuit solutions at SIL 3 (EN 62061), PL e (EN 13849) or category 4 (EN 954-1) levels.

Field wireable M12 male connectors
Technopolymer connector body.
Gold-plated contacts.
Screw terminals for cable screw fittings.
Protection degree IP67.

Article	Description
VF CCMP5DM04	Field wireable M12 male connector, 5-pole, straight, for Ø 4 ... Ø 6.5 mm multipolar cables
VF CCMP8DM04	Field wireable M12 male connector, 8-pole, straight, for Ø 4 ... Ø 7 mm multipolar cables

Field wireable M12 female connectors
Technopolymer connector body.
Gold-plated contacts.
Screw terminals for cable screw fittings.
Protection degree IP67.

Article	Description
VF CBMP4DM04	Field wireable M12 female connector, 4-pole, straight, for Ø 4 ... 6.5 mm multipolar cables
VF CBMP5DM04	Field wireable M12 female connector, 5-pole, straight, for Ø 4 ... 6.5 mm multipolar cables
VF CBMP8DM04	Field wireable M12 female connector, 8-pole, straight, for Ø 4 ... 7 mm multipolar cables

M12 connectors for series connection

Field wireable M12 male - female connectors
Polyurethane connector body.
Protection degree IP67.
Gold-plated contacts.
Self-locking ring nut.

Article	Description
VF CA5PD3M-MD	M12 connector, 5-pole, straight, length 3 m
VF CA5PD5M-MD	M12 connector, 5-pole, straight, length 5 m
VF CA5PD0M-MD	M12 connector, 5-pole, straight, length 10 m
VF CA8PD3M-MD	M12 connector, 8-pole, straight, length 3 m
VF CA8PD5M-MD	M12 connector, 8-pole, straight, length 5 m

M12 terminating plugs for series connections
Polyurethane connector body.
Protection degree IP67.
Gold-plated contacts.
Self-locking ring nut.

Article	Description
VF CY100P0	M12 terminating plugs for series connections, 4-pole

M12 connector, Y-shaped, for series connections with 150 mm cable length
Polyurethane connector body.
Protection degree IP67.
Gold-plated contacts.
Self-locking ring nut.

Article	Description
VF CY201P0	M12 connector, Y-shaped, for series connections with 150 mm cable length

M12 connector, Y-shaped, for series connections without cable
Polyurethane connector body.
Protection degree IP67.
Gold-plated contacts.
Self-locking ring nut.

Article	Description
VF CY203P0	M12 connector, Y-shaped, for series connections without cable

M23 connectors

**M23 male connectors**

Protection degrees IP67 and IP69K.
M20x1.5 thread on the device side.
Gold-plated contacts.

Article	Description
VF CNM12MT-L10	M23 connector, 12-pole, length 10 cm
VF CNM12MT-L16	M23 connector, 12-pole, length 16 cm
VF CNM19MT-L10	M23 connector, 19-pole, length 10 cm
VF CNM19MT-L16	M23 connector, 19-pole, length 16 cm

**M23 female connectors with cable**

Protection degrees IP67 and IP69K.
Gold-plated contacts.

Article	Description
VF CA12PD0S	M23 connector, 12-pole, length 10 m
VF CA12PD20S	M23 connector, 12-pole, length 20 m
VF CA19PD0S	M23 connector, 19-pole, length 10 m
VF CA19PD20S	M23 connector, 19-pole, length 20 m

Cable glands and adapters

**Protection caps**

Protection caps for threaded conduit entries.
Protection degree IP67.

Packs of **100 pcs.**

Article	Description
VF PTG13.5	Protection cap PG13.5
VF PTM20	Protection cap M20x1.5

**Chock plugs**

Chock plug for multipolar cables, threaded, M20x1.5.
Protection degree IP54.

Packs of **100 pcs.**

Article	Description
VF PFM20C8N	Chock plug for cables Ø 8 ... 12 mm, threaded, M20x1.5
VF PFM20C4N	Chock plug for cables Ø 4 ... 8 mm, threaded, M20x1.5

**Strain relief cable glands**

This particular design ensures high resistance to traction of the cable glands. All cable glands are also suitable for a wide range of cable diameters. Protection degree IP67.

Packs of **10 pcs.**

	Article	Description	Rubber shapes
Metric threads	VF PAM25C7N	M25x1.5, for 1 cable from Ø 10 ... 17 mm	○
	VF PAM20C6N	M20x1.5, for 1 cable from Ø 6 ... 12 mm	○
	VF PAM20C5N	M20x1.5, for 1 cable from Ø 5 ... 10 mm	○
	VF PAM20C3N	M20x1.5, for 1 cable from Ø 3 ... 7 mm	○
	VF PAM16C5N	M16x1.5, for 1 cable from Ø 5 ... 10 mm	○
	VF PAM16C4N	M16x1.5, for 1 cable from Ø 4 ... 8 mm	○
	VF PAM16C3N	M16x1.5, for 1 cable from Ø 3 ... 7 mm	○
	VF PAM20CBN	M20x1.5 for 2 cables Ø 3 ... 5 mm	⊕
	VF PAM20CDN	M20x1.5 for 3 cables Ø 1 ... 4 mm	⊕
	VF PAM20CEN	M20x1.5 for 3 cables Ø 3 ... 5 mm	⊕
VF PAM20CFN	M20x1.5 for 4 cables Ø 1 ... 4 mm	⊕	
Threads PG	VF PAP13C6N	PG 13.5, for one cable from Ø 6 ... 12 mm	○
	VF PAP13C5N	PG 13.5, for one cable from Ø 5 ... 10 mm	○
	VF PAP13C3N	PG 13.5, for one cable from Ø 3 ... 7 mm	○
	VF PAP11C5N	PG 11, for one cable from Ø 5 ... 10 mm	○
	VF PAP11C4N	PG 11, for one cable from Ø 4 ... 8 mm	○
	VF PAP11C3N	PG 11, for one cable from Ø 3 ... 7 mm	○

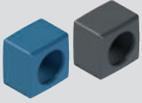

**Thread adapters**

Thread adapters make it possible to fulfil requests for switches with a different thread to those generally found in stock. This means it is possible to offer customers a single product type with various threaded connections, while only having to stock the product itself and many kinds of adapters.

Packs of **100 pcs.**

Article	Description
VF ADPG13-PG11	Adapter from PG 13.5 to PG 11
VF ADPG13-M20	Adapter from PG 13.5 to M20x1.5
VF ADPG13-1/2NPT	Adapter from PG 13.5 to 1/2 NPT
VF ADPG11-1/2NPT	Adapter from PG 11 to 1/2 NPT
VF ADPG11-PG13	Adapter from PG 11 to PG 13.5
VF ADM20-1/2NPT	Adapter from M20x1.5 to 1/2 NPT

Tampering protection for M12 connectors

Tampering protection for M12 connectors

These tampering protections are composed of two identical snap-on shells. They are applied to the device connectors, thereby making them inaccessible. The shells can only be removed by breaking them. Thus, any attempt to tamper with them will be immediately evident.

Packs of **10 pcs.**

Article	Description
VF PC1A9	Tampering protection for device connectors - grey
VF PC2A9	Tampering protection for male-female connectors - grey
VF PC1B6	Tampering protection for device connectors - blue, detectable
VF PC2B6	Tampering protection for male-female connectors - blue, detectable

LED signalling lights

Signalling lights

These LED signalling lights are used for signalling that an electric contact has changed its state inside the switch. They can be installed on switches by screwing them on one of the conduit entries not used for electric cables.

- Protection degrees IP67 and IP69K
- Ambient temperature -25°C to +70°C
- Push-in type spring-operated connection system
- Body with M20x1.5 thread

Packs of **5 pcs.**

Article	Description
VF SL1A2PA1	White, 24 Vac/dc
VF SL1A3PA1	Red, 24 Vac/dc
VF SL1A4PA1	Green, 24 Vac/dc
VF SL1A5PA1	Yellow, 24 Vac/dc

Fixing screws

Torx safety screws

Pan head screws with Torx fitting and pin, stainless steel.

Use a thread locker where required for applications acc. to. EN ISO 14119.

Packs of **10 pcs.**

Article	Description
VF VAM4X10BX-X	M4x10 screw, with Torx T20 fitting, AISI 304
VF VAM4X15BX-X	M4x15 screw, with Torx T20 fitting, AISI 304
VF VAM4X20BX-X	M4x20 screw, with Torx T20 fitting, AISI 304
VF VAM4X25BX-X	M4x25 screw, with Torx T20 fitting, AISI 304
VF VAM4X30BX-X	M4x30 screw, with Torx T20 fitting, AISI 304
VF VAM5X10BX-X	M5x10 screw, with Torx T25 fitting, AISI 304
VF VAM5X15BX-X	M5x15 screw, with Torx T25 fitting, AISI 304
VF VAM5X20BX-X	M5x20 screw, with Torx T25 fitting, AISI 304
VF VAM5X25BX-X	M5x25 screw, with Torx T25 fitting, AISI 304
VF VAM5X35BX-X	M5x35 screw, with Torx T25 fitting, AISI 304
VF VAM5X45BX-X	M5x45 screw, with Torx T25 fitting, AISI 304

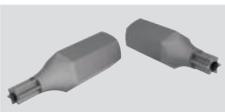

OneWay safety screws

Pan head screws with OneWay fitting in stainless steel. This screw type cannot be removed or tampered with using common tools. Ideal for fixing safety device actuators in accordance with EN ISO 14119.

Packs of **10 pcs.**

Article	Description
VF VAM4X10BW-X	M4x10 screw, with OneWay fitting, AISI 304
VF VAM4X15BW-X	M4x15 screw, with OneWay fitting, AISI 304
VF VAM4X20BW-X	M4x20 screw, with OneWay fitting, AISI 304
VF VAM4X25BW-X	M4x25 screw, with OneWay fitting, AISI 304
VF VAM5X10BW-X	M5x10 screw, with OneWay fitting, AISI 304
VF VAM5X15BW-X	M5x15 screw, with OneWay fitting, AISI 304
VF VAM5X20BW-X	M5x20 screw, with OneWay fitting, AISI 304
VF VAM5X25BW-X	M5x25 screw, with OneWay fitting, AISI 304

Bits for Torx safety screws

Bits for safety screws, with 1/4" connection.

Article	Description
VF VAIT1T20	Bits for M4 screws with Torx T20 fitting with safety pin
VF VAIT1T25	Bits for M5 screws with Torx T25 fitting with safety pin
VF VAIT1T30	Bits for M6 screws with Torx T30 fitting with safety pin
