MORE THAN 200 PROFESSIONALS WITH PASSION

It is people, with their professionalism and dedication that make a great company. This profound conviction has always guided Pizzato Elettrica in its choice of employees and partners. Today, Giuseppe and Marco Pizzato lead a tireless team providing the fastest and most efficient response to the demands of the market. This team has grown since the year 2000 and has achieved a considerable increase in business in all the countries where Pizzato Elettrica is present.

The various strategic sectors of the business are headed by professionals with significant experience and expertise. Many of these people have developed over years with the company. Others are experts in their specific field and have integrated personal experience with the Pizzato Elettrica ethos to extend the company's capability and knowledge.

From the design office to the technical assistance department, from managers to workers, every employee believes in the company and its future. Pizzato Elettrica employees all give the best of themselves secure in the knowledge they are the fundamental elements of a highly valuable enterprise.

100% MADE IN ITALY

Pizzato Elettrica is one of the leading European manufacturers of position switches, microswitches, safety devices, safety modules, foot switches, control and signalling devices, and devices for elevators.

An entrepreneurial company such as Pizzato Elettrica bases its foundations on a solid and widely shared value system. The pillars that form the basis of the company's work have remained constant, and constitute the fundamental guiding principles for all company activities.

PASSION FOR QUALITY

Passion for product quality, orientation towards excellence, innovation, and continuous development, represent the key principles of Pizzato Elettrica's everyday work.

Anyone using Pizzato Elettrica's products does so in the certainty that these devices are of certified quality, since they are the result of a process that is scrupulously controlled at every stage of the production.

The company's goal is to offer the market safe, reliable, and innovative solutions.

CARE FOR THE CUSTOMER

In order to be successful, a product must respond to the specific needs of those who will use it. Market developments must be carefully monitored in order to understand, in advance, which new applications will prove themselves truly useful. This is why Pizzato Elettrica has always cultivated close synergies with the companies that have chosen them as a supplier, using this continuous dialogue to identify the potential developments of the own product range in order to make it highly flexible, complete and capable to respond to the most diverse needs.

100% MADE IN ITALY

All Pizzato Elettrica products are designed, developed, and tested entirely at the 7 company plants in Marostica, in the province of Vicenza in Italy. The company is thus able to meet specific customer requirements at all times, by offering a comprehensive range of products and technologically advanced solutions.

1984: AN ENTREPRENEURIAL STORY BEGINS

1984

The company Pizzato di Pizzato B. & C. snc. manufacturer of position switches is founded.

1988

The company becomes a limited liability partnership, and is renamed Pizzato Elettrica, a brand shortly destined to become renowned and valued nationwide. Also in the year 1988, the first company-owned plant geared towards mechanical processing was built. By the end of the decade, thanks to the development of quality products and the experience built on the Italian market, Pizzato Elettrica turns to the international market.

1995

Building of the second plant geared towards the moulding of plastic materials. Development of the position switch range continues in parallel. Start of significant years in terms of safety devices planning. The safety sector becomes a key sector to the company.

1998

Construction of the third plant, housing the assembly department.

2002

New millennium starts with quality certifications: achievement of the ISO 9001:2000 certification. Launching of the first safety modules. Construction of the new headquarters and logistics site; currently the company head office. Continued expansion of the industrial safety and automation product range.

2007

Pizzato Elettrica faces their first generational change: Giuseppe and Marco Pizzato take over the company directorship.

2010

Extension of Pizzato Elettrica product portfolio, with the launch of the innovative EROUND line consisting of control and signalling devices. This product range accompanies position switches and safety devices, thus offering complete solutions to customers.

2012

Introduction of Gemnis Studio, the first software produced by Pizzato Elettrica. A graphic development environment for the creation, simulation, and debugging of programs that can be integrated in the Gemnis line modules.

2013

Foundation of first subsidiary of Pizzato Elettrica, Pizzato Deutschland GmbH, in Germany.

2014

A new production facility dedicated to switches and automatic machines is opened, spanning a surface area of 6000 m².

2016

Foundation of second subsidiary of Pizzato Elettrica, Pizzato France SARL, in France.

The new NS series of safety switches with electromagnets and RFID technology is introduced, fruit of the company's experience, spanning more than thirty years in the field of industrial safety. To date it is the state of the art in its industry.

2017

The company continues to expand and now includes an additional production facility, the new location of the offices in the sales network.

Today

Giuseppe and Marco Pizzato lead a company in constant growth in terms of new product launches, number of employees (more than 200 employees at present), turnover, and new markets. Pizzato Elettrica is continuing their new product internationalisation and development process.

70,000,000 PARTS SOLD WORLDWIDE

Pizzato Elettrica's product catalogue contains more than 7,000 articles, with more than 1,300 special codes developed for devices personalised according to clients' specific needs.

Pizzato Elettrica devices can be grouped, according to typology, into three main macro-categories:

- **POSITION SWITCHES.** Pizzato Elettrica position switches are daily installed in every type of industrial machinery all over the world for applications in the sector of wood, metal, plastic, automotive, packaging, lifting, medicinal, naval, etc.

In order to be used in a such wide variety of sectors and countries, Pizzato Elettrica position switches are made to be assembled in a lot of configurations thanks to the various body shapes, dozens of contact blocks, hundreds of actuators and materials, forces, assembling versions. Pizzato Elettrica can offer one of the widest product range of position switches in the world. Moreover, the use of high quality materials, high reliability technologies (e.g. twin bridge contact blocks) as well as the IP67 protection degree make this range of position switches one of the most technologically evolved.

- **SAFETY DEVICES.** The company Pizzato Elettrica has been one of the first Italian companies developing dedicated items for this sector, creating and patenting dozens of innovative products, thus becoming one of the main European manufacturers of safety devices. The wide range of specific products for machine safety completely designed and assembled in our company premises in Marostica (VI) - Italy, has been extended by the introduction of coded magnetic sensors, solenoid switches provided with emergency release devices, safety hinge switches and safety handles. Recent products include the safety sensors with RFID technology of the ST series, the stainless steel hinge safety switches of the HX series, the RFID safety switches with block of the NG series, the safety handle of the P-KUBE 2 line and the safety switches with electromagnets and RFID technology of the NS series.

- **MAN-MACHINE INTERFACE.** Thanks to the introduction of the EROUND control and signalling devices, Pizzato Elettrica has remarkably widened their offer within the man-machine interface sector.

Thanks to the new design, the care for details and the elegance of the product combined with its maximum safety and reliability, this series is one of the most complete and cutting-edge on the market.

Our company offers a wide range of products that includes single and modular foot switches with many patented joining kits.

In order to satisfy its customers' needs and requests, Pizzato Elettrica offers a lot of accessories purposely designed not only to complete their wide range of products, but also to help device installation on machineries.

12 MILLION CERTIFIED PRODUCT CODES

A simple brand isn't enough: the company is aiming for the Pizzato Elettrica brand to be widely recognised as a synonym for absolute quality and certainty.

A result that has been reached and consolidated over the years, updating and expanding the series of certifications obtained from the most important Italian and international control organisations. Product quality is assessed by five accredited external bodies: IMQ, UL, CCC, TÜV SÜD, EAC. These bodies lay out high technical and qualitative standards for the company to achieve and maintain, verified yearly with seven different inspections: these are performed, without prior notice, by qualified inspectors, who extract samples of products and materials destined for sale from plants, or from the market directly, to subject them to apposite tests.

- **CE MARK.** All Pizzato Elettrica products bear the CE marking in conformity with the European Directives in force.
- **ISO 9001 CERTIFICATION.** The company's production system complies with national UNI EN ISO 9001 and international ISO 9001 standards. The certification covers all of the company's plants and their production and managerial activities: entry checks, technical, purchasing and commercial department activities, manufacturing operations assessments, final pre-shipping product tests and checks, equipment reviews and the management of the metrological lab.
- **CERTIFICATION OF COMPANY QUALITY SYSTEMS.** Pizzato Elettrica has obtained the certificate of compliance with the UNI EN ISO 9000 regulations in force in Italy and abroad. It is issued by a recognised independent body that guarantees the quality and reliability of the service offered to clients worldwide.
- **CSQ, CISQ AND IQNET.** The CSQ system is part of the CISQ (Italian Certification of Quality Systems) federation, which consists of the primary certification bodies operating in Italy in the various product sectors. CISQ is the Italian representative body within IQNet, the biggest international Quality Systems and Company Management certification network, which is adhered to by 25 certification organs in as many countries.

TECHNICAL AND SALES ASSISTANCE

TECHNICAL DEPARTMENT

The Pizzato Elettrica technical department provides direct technical and qualified assistance in Italian and English, helping in this way the customers to choose the suitable product for their own application explaining the characteristics and the correct installation.

Office hours: Monday to Friday
08 am - 12 pm / 02 pm - 06 pm CET
Phone: +39.0424.470.930
fax: +39.0424.470.955

In order to buy a FX, FM e FZ: series product:

substitute on above mentioned codes FR with FX, FM or FZ.: Example: **FR 601-W3M2** → **FM 601-W3M2**

Position switches without actuator, see page 13

Pizzato Elettrica has developed a reset device code W3 to make perfectly simultaneous the actuator and the contact block tripping. This device is a block inserted between the switch body and the head, and could be rotated independently from this last one. This new device has following advantages:

- Contact blocks with snap action are no more necessary because the tripping movement is made by the reset device itself
- The reset device can be rotated independently from the head for the maximum flexibility during the assembling
- Two driving forces: standard (W3) and increased (W4) for applications with vibrations
- Mechanical endurance: 1 million operations cycles.

Switches for special applications

FR series with electronic contact blocks

Housing made of polymer glass-reinforced
 One conduit entry M20x1.5
 Protection degree IP67
 Marks:
 Ambient temperature: -25°C ... +80°C

- Operation voltage (Ue): from 10 to 30 Vdc
- Output signals without bounces
- Power supply and switching LED
- Operation current (Ie): 200 mA
- Two static outputs 1NO and 1NC
- Minimum differential travel
- Adjustable intervention point
- Reduced actuating force

Loose actuators, see page 13

Electronic PNP contacts (1NO-1NC)

FR E121-M2 FR E155-M2 FR E138-M2

In order to buy a FX, FM e FZ: series product:

substitute on above mentioned codes FR with FX, FM or FZ.: Example: **FR E121-M2** → **FM E121-M2**

MK series for high temperature

Ambient temperature: -25°C ... +120°C
 Housing made of polymer glass-reinforced
 Positive opening versions
 Screw terminals
 Protection degree from IP40 (electric contacts)
 Marks:

Snap action contacts 1NO+1NC

Housing NB series (Distance fixing holes 25 mm)

M12 connector output from right

M12 connector output from bottom

AMP superseal 1.5 connector

Cable and M12 connector

In order to buy a NB series product: substitute on above mentioned codes NA with NB.
 Example:
 NA B110AA-DN2 → NB B110AA-DN2

In order to buy a product with M12 connector output from right substitute on above mentioned codes DN2 with DMK. Example:
 NA B110AA-DN2 → NA B110AA-DMK

In order to buy a product with M12 connector output from bottom substitute on above mentioned codes DN2 with SMK. Example:
 NA B110AA-DN2 → NA B110AA-SMK

In order to buy a product with AMP connector output substitute on above mentioned codes DN2 with SAK. Example:
 NA B110AA-DN2 → NA B110AA-SAK

In order to buy a product with M12 connector output substitute on above mentioned codes DN2 with DM0.2. Example:
 NA B110AA-DN2 → NA B110AA-DM0.2

NF series

Housing made of polymer glass-reinforced
 Cable length 2 m (other lengths available on request)
 Distance between fixing holes 20 mm
 Protection degree IP67 and IP69K
 Marks:

- Snap action contacts 1NO+1NC
- Snap action contacts 1NO+2NC
- Snap action contacts 2NO+2NC
- Slow action contacts 1NO+1NC
- Slow action contacts 1NO+2NC
- Slow action contacts 2NO+2NC

Transmission block

⚠ Installation for persons protection applications:

In order to obtain a safety switch with positive opening ⊕, assemble housings having the positive opening symbol next to the code ⊕ with actuators having the positive opening symbol next to the code ⊕.

Example:
VN A00KB ⊕ + VN AA200 ⊕ + NA B11000 ⊕

VN A00LB	VN A00LE	VN A00LH	VN A00LL	VN AA200 ⊕	VN AA000-W5 ⊕

Metallic stabilizing plate for single foot switches	Metallic stabilizing plate for double switches	Additional metal protection for PA series. For heavy-duty work environment, oversize dimensions for safety shoes. Not applicable with VF KIT60.	Additional metal protection for PC series. For heavy-duty work environment, oversize dimensions for safety shoes. Not applicable with VF KIT61.	Additional contact block for foot switches (all foot switches are supplied with contact blocks).

Modular multiple foot switches PC series

Using the joining kits VF KIT20 or VF KIT30 the single foot switches can be joined in many different combinations.

Items with code on the green background are available in stock

Elegance and functionality in one single series: Pizzato Elettrica extends its products range by introducing EROUND, the innovative line of control and signalling devices.

The new series, ergonomically studied to consent a comfortable and easy use of the devices, presents a particularly pleasant line with high attention to details making the products suitable for applications also on machineries with refined design.

EROUND devices thanks to their shape and functionality guarantee max reliability and adaptability to any application.

Almost all of the devices besides having protection degree IP67 have successfully passed the test for protection degree IP69K according to standard ISO 20653.

^b Compatible with modules with production batch later than 06/2014 only.

Safety sensors with RFID technology

ST series safety sensors with RFID technology

Housing made of polymer glass-reinforced
2 m cable or M12 connector versions
Actuator with high level of coding
(EN ISO 14119)

Protection degree IP67 and IP69K
State signaling LED
Supply voltage: 24 Vdc
Marks:

OS safety outputs	O signalling outputs	IS safety inputs	programming inputs I	EDM inputs	Programmable	M12 connector on right		M12 connector on left

Application examples

Items with code on the green background are available in stock

The CS series safety modules have been studied with clear aims of safety and reliability for the product. The design, development and production of these units have been faced with the passion for quality that distinguishes Pizzato Elettrica.

During the design phase, principles of over-sizing were adopted, and the circuit schemes have been checked by independent third party institutes. Also the selection of the components used has been made with accurate quality aims, and the basic parts, such as relays with forced guided contacts, have been chosen among the best brands existing. The production phase itself, completely developed within the company Pizzato Elettrica, is supervised with a functional testing on 100% of the production. Every single piece produced is verified in a computerised testing station that prints the safety module label, identified from a unique serial number, only when the product passes every test.

Pizzato Elettrica has improved also the more practical aspects, using compact housings and with LED signals of the operation state of the modules. Particular attention has been paid to the connection possibilities, allowing the customer to choose between fixed clamps or plug-in connectors and screw or spring terminals. Finally, the range of products provides different supply tensions with a wide tolerance on nominal values to avoid any problem in the less industrialised countries.

Pizzato Elettrica is pleased to present a new series of programmable safety modules, resulting from the decades-long experience of the company in the machine safety sector.

A CS MP series module is a programmable safety device, which allows several safety functions to be carried out simultaneously. This series of products has been specifically developed in order to meet the demands from manufacturers of machinery featuring a medium/low number of safety functions. As an indication, these modules are able to manage minimum applications comparable to the functions carried out by 3 - 4 traditional electromechanical safety modules and circuits having up to a few dozen inputs. The Gemnis Studio program is a graphic development environment for the creation, simulation and debug of programs suitable to be entered in the modules belonging to the Gemnis line.

This software is licensed to the user who wishes to program the said modules, subject to prior registration in our web site: www.gemnis.com.

Pre-programmed multifunction modules CS MF

An increasing number of users requires products to carry out several safety functions without needing the complex management of a safety PLC or the complex wiring of many traditional safety modules. Such problems mainly arise when the safety functions are usually greater than 3 or 4, and/or when managing a safety PLC software (software purchase, training courses, programming of all modules, software management and filing, updates etc.) turns out to be difficult in relation to problem complexity. Pizzato Elettrica introduces Gemnis, a series of electronic modules which are pre-programmed for specific customers' applications or for generic safety macro-functions commonly used in industrial contexts. This page lists some of the products pre-programmed for generic macro-functions commonly addressed to the industrial sector. Such products can be freely purchased even individually. Any customer requiring a product pre-programmed on particular specifications can contact the Pizzato Elettrica technical department (minimum volumes are requested).

The resulting advantages for customers typically include simple product management (purchase of finished components) and reduced general costs (no software to be installed and managed, products immediately operative).

All the Gemnis series products are able to provide circuit solutions at SIL3 (EN 62061), PLe (EN 13849) or category 4 (EN 954-1) levels.

	VF CA12PD5M	12 poles straight M12 connector, length 5 m
	VF CA12PD0M	12 poles straight M12 connector, length 10 m

M12 sockets, field wireable
Technopolymer connector body
Gold-plated contacts
Screw terminals for wiring
Protection degree IP67

	Article	Description
	VF CBMP4DM04	Field wireable M12 socket, 4 poles straight, for multipolar cables from Ø 4 to Ø 6.5 mm
	VF CBMP5DM04	Field wireable M12 socket, 5 poles straight, for multipolar cables from Ø 4 to Ø 6.5 mm
	VF CBMP8DM04	Field wireable M12 socket, 8 poles straight, for multipolar cables from Ø 4 to Ø 7 mm

M12 plugs, field wireable
Technopolymer connector body
Gold-plated contacts
Screw terminals for wiring
Protection degree IP67

	Article	Description
	VF CCMP5DM04	Field wireable M12 plug, 5 poles straight, for multipolar cables from Ø 4 to Ø 6.5 mm
	VF CCMP8DM04	Field wireable M12 plug, 8 poles straight, for multipolar cables from Ø 4 to Ø 7 mm

M12 connectors, Y-shaped, for series connections
Polyurethane connector body
Protection degree IP67
Gold-plated contacts
Self locking ring nut

	Article	Description
	VF CY201P0	M12 connectors, Y-shaped, for series connections

Extension cable with M12 connectors
Polyurethane connector body
Protection degree IP67
Gold-plated contacts (resistance < 5 mΩ)
Self locking ring nut

	Article	Description
	VF CA5PD3M-MD	5 poles straight M12 connector, length 3 m
	VF CA5PD5M-MD	5 poles straight M12 connector, length 5 m
	VF CA5PD0M-MD	5 poles straight M12 connector, length 10 m
	VF CA8PD3M-MD	8 poles straight M12 connector, length 3 m
	VF CA8PD5M-MD	8 poles straight M12 connector, length 5 m

M12 terminating plugs for series connections
Polyurethane connector body
Protection degree IP67
Gold-plated contacts
Self locking ring nut

	Article	Description
	VF CY100P0	M12 terminating plugs for series connections, 4 poles

Thread adapters
With these adapters it is possible to offer to the customers the same product with different threaded cable entries, while only having to stock a single product and many kinds of adapters.

	Article	Description
	VF ADPG13-PG11	Adapter from PG 13.5 to PG 11
	VF ADPG13-M20	Adapter from PG 13.5 to M20x1.5
	VF ADPG13-1/2NPT	Adapter from PG 13.5 to 1/2 NPT
	VF ADPG11-1/2NPT	Adapter from PG 11 to 1/2 NPT
	VF ADPG11-PG13	Adapter from PG 11 to PG 13.5
	VF ADM20-1/2NPT	Adapter from M20x1.5 to 1/2 NPT

100 pcs pack.

Wiretrap cable gland
The new design and technology allows this type of cable gland to offer a higher resistance to cable tractions. Every cable gland can also accept a wider diameter cable range.
Protection degree IP67.

10 pcs pack.

	Article	Description	Gasket sharp
Metric threading	VF PAM25C7N	M25x1.5 for one cable from Ø 10 ... 17 mm	○

Items with code on the green background are available in stock

**Chock plug for cable**

Chock plug for multipolar cable, threaded M20x1.5.
Protection degree IP54.

100 pcs pack.

Article	Description
VF PFM20C8N	Chock plug for cable from Ø 8 to Ø 12 mm, threaded M20x1.5
VF PFM20C4N	Chock plug for cable from Ø 4 to Ø 8 mm, threaded M20x1.5

**Safety screws Torx**

Pan head screws with Torx fitting and pin, stainless steel.
Where required for applications conforming to EN ISO 14119 use a thread locker.

10 pcs. packs

Article	Description
VF VAM4X10BX-X	M4x10, with Torx T20 fitting, AISI 304
VF VAM4X15BX-X	M4x15, with Torx T20 fitting, AISI 304
VF VAM4X20BX-X	M4x20, with Torx T20 fitting, AISI 304
VF VAM4X25BX-X	M4x25, with Torx T20 fitting, AISI 304
VF VAM4X30BX-X	M4x30, with Torx T20 fitting, AISI 304
VF VAM5X10BX-X	M4x10, with Torx T25 fitting, AISI 304
VF VAM5X15BX-X	M4x15, with Torx T25 fitting, AISI 304
VF VAM5X20BX-X	M4x20, with Torx T25 fitting, AISI 304
VF VAM5X25BX-X	M4x25, with Torx T25 fitting, AISI 304
VF VAM5X35BX-X	M4x35 with Torx T25 fitting, AISI 304
VF VAM5X45BX-X	M4x45, with Torx T25 fitting, AISI 304

**Torx safety screws bits**

Safety screws bits, ¼" drive.

Article	Description
VF VAIT1T20	Bits for tamper-resistant Torx T20, M4 screw
VF VAIT1T25	Bits for tamper-resistant Torx T25, M5 screw
VF VAIT1T30	Bits for tamper-resistant Torx T30, M6 screw

**Protection plugs**

Protection plug for threaded conduit entries.
Protection degree IP67.

100 pcs pack.

Article	Description
VF PTG13,5	Protection plug PG13.5
VF PTM20	Protection plug M20x1.5

**LED signalling lights**

These LEDs are used to display the change of state of an electrical contact placed inside the circuit breaker. They can be installed on the switches by screwing them on one of the unused inputs for the passage of the electrical wires.

- Protection degree IP67 e IP69K
- Ambient temperature -25..+70°C
- PUSH-IN spring type
- Threaded body M20x1,5

5 pcs pack.

Article	Description
VF SL1A2PA1	White, 24 Vac/dc
VF SL1A3PA1	Red, 24 Vac/dc
VF SL1A4PA1	Green, 24 Vac/dc
VF SL1A5PA1	Yellow, 24 Vac/dc

**Safety screws One-Way**

Pan head screws with OneWay fitting in stainless steel. This screw type cannot be removed or tampered with using common tools. Ideal for fixing safety device actuators in accordance with EN ISO 14119.

10 pcs. packs

Article	Description
VF VAM4X10BW-X	M4x10 screw, with OneWay fitting, AISI 304
VF VAM4X15BW-X	M4x15 screw, with OneWay fitting, AISI 304
VF VAM4X20BW-X	M4x20 screw, with OneWay fitting, AISI 304
VF VAM4X25BW-X	M4x25 screw, with OneWay fitting, AISI 304
VF VAM5X10BW-X	M5x10 screw, with OneWay fitting, AISI 304
VF VAM5X15BW-X	M5x15 screw, with OneWay fitting, AISI 304
VF VAM5X20BW-X	M5x20 screw, with OneWay fitting, AISI 304
VF VAM5X25BW-X	M5x25 screw, with OneWay fitting, AISI 304
