THE FUTURE IS HERE WITH SMARTEC PRECISION TECHNOLOGY

SMARTEC EA50

Durable motor technology for years of trouble-free life

When interfaced with Hydro-Gear pumps the EA50 provides unlimited performance and control capacity

Smooth & easy control that reduces operator fatigue

IP 66 rated for protection against dust and water

Used on Hydro-Gear 6cc - 21cc variable piston displacement high-performance pumps

SPECS

200 watt DC motor

Internal slip clutch protection

Actuation Torque: 0-490 in/lbs [55 nm], 550 in/lbs [62 nm] holding

Actuation Time: 20 degrees in 1 second

Position sensor

50 degree rotation

Patent Pending

SMARTEC EDC

Windows based PC calibration for ease of use

Built-in relay detection features for added safety

Small & compact, the only controller to run two EA50s

Developed specifically for use with the Smartec EA50

Easy plug & play capability

IP 66 rated for protection against dust and water

SPECS

14.4 volts normal

Range: 10-19.2v

Adjustable Program Features

J1939 Compliant

6 inputs / 2 outputs

Pending Application Review

Patent Pending

FORGING THE FUTURE SINCE 1991

Hydro-Gear is a world-wide leader in hydraulic drive products. With the support of its parent companies, Danfoss and Agri-Fab, Hydro-Gear has provided over 25 years of innovative mobile fluid power solutions focusing on efficiency, performance, and economical value.

Today, Hydro-Gear is the preeminent designer and manufacturer of hydrostatic transmissions that serve multiple industries and customers around the world.

Hydro-Gear continues its dedication of providing quality products by offering electronic solutions through Smartec. These solutions are not only economical but perform at a level customers have come to expect.
